FROM

**Jacques Booysen**  
Senior Data Scientist

Dear Hiring Manager,

I am writing to express my interest in the Data Scientist - Machine Learning role at Catawiki. With over 10 years of experience in data science and machine learning, I am confident in my ability to make a valuable contribution to your team.

Throughout my career, I have honed my skills in data analysis, predictive modeling, and data visualization. My expertise in R and Python has allowed me to develop and implement various data-driven solutions for my clients, resulting in improved business outcomes and increased efficiency. In my current role at Enerweb, I have worked on several projects that have utilised AWS as the main cloud provider. My experience with AWS has provided me with a solid understanding of its various services and how they can be used to support data science and machine learning projects.

I am particularly impressed with Catawiki's reputation as a leading e-commerce platform and its commitment to using data and technology to drive business growth. I would be honoured to bring my skills and experience to your team and contribute to the company's continued success.

Thank you for considering my application. I look forward to the opportunity to further discuss my qualifications with you.

Sincerely,

Jacques Booysen
